Multiple entries per customer allowed. To qualify the order must contain \$100+ of the products listed in this brochure. Model and color may be different than images above. Colonial reserves the right to amend this promotion at any time.

BOLLARDS

• Dual Selectable Bollard

The LEDVANCE BOLLARD luminaires are ideal for walkways, parking lots, gardens and outdoor areas. Offered in two versions: full 360° illumination pattern and, as a first of its kind, with field selectable illumination zones. Not only does the LEDVANCE BOLLARD offer wattage and CCT selectability, it also features zone selectability. Use this bollard along any pathway and choose between 90, 180, 270 and 360 illumination patterns right in the field – true application flexibility!

SIGN LAMPS

LEDVANCE Lamps

LEDlescent™ 360 SELECT™ LED T8 UL Type B Lamps for Signage

LEDlescent™ 360 SELECT™ T8 Ballast-Free, Direct Wire lamps are an energy saving alternative, designed to replace traditional fluorescent high output T8 and T12 signage lamps by bypassing the existing ballast. These sign replacement lamps are made of robust plastic and aluminum, with LEDs on both sides that provide 360° omnidirectional light. They are color selectable to allow for application flexibility on site to display the sign material content in the most appropriate correlated color temperature. These lamps also provide even diffuse light distribution without hot spots due to their specifically designed optics, contain no mercury, provide instant light and are engineered to operate directly on 120-277V.

FLAT PANELS

• Dual Selectable T-Fit

The LEDVANCE T-FIT are an innovative solution for illuminating offices, conference rooms, restaurants and retail areas. This is an innovative, modern and sustainable design that delivers the same specifications of a regular flat panel. Dual selectability enabled via the switches located on the driver increases the variety of applications and allows for on-site lighting adjustments.

LED DRIVERS

• LEDVANCE NFC LED Drivers

Field-Programmable, Near-Field Communication (NFC) LED Drivers. This family covers linear, compact, and outdoor drivers. These drivers are available in the industry's most desirable wattages. Our programming software app can be downloaded in seconds on any smartphone. The programming is easy and simple to follow.

Key Features

- » Field-programmable via free app
- » Programming does not require driver to be powered up
- » Compact: 25W and 40W both F-can and J-can housing style
- » Linear: 36W, 55W and 88W
- » Outdoor: 100W and 180W
- » Field-programmable – your installers will thank you
- » Near-field communication interface
- » LEDVANCE's own tapTronic software
- » Large programmable range from each driver, ideal when consolidating your on-hand inventory from in-house or in a service truck. Customize their output in seconds.
