ELIMINATE
FAULTY CABLE PULLS
WITH SERVICEPLEX BY

THE COST OF A FAULTY PULL ON YOUR JOB SITE AND BOTTOM LINE

Wasted Time

Instead of moving to the next phase, additional time is required to repull and test the cable.

Material Cost

A faulty pull usually means your cable has been compromised and forces you to spend additional money on material.

Extra Overtime

A cable fault strains your labor resources and will require extra time to finish the job. This affects productivity and your bottom line.

WHAT CAUSES A CABLE FAULT READING?

Excess Friction

Too much friction and tension might be put on the conductors during the pull.

Jammed Parallels

Standard parallel cables are prone to getting jammed inside the conduit during a pull.

Fragile THHN

Standard THHN is very soft and leaves the conductors vulnerable to damage.

THE SERVICEPLEX® SOLUTION

LESS SURFACE AREA = LESS FRICTION DURING PULL

ServicePlex® twisted rope design not only makes the cable more stable but also reduces the conductor's total surface area.

SERVICEPLEX® USES TOUGHER XHHW INSULATION

XHHW insulation is tougher and far superior to THHN. Colonial is offering XHHW at the **SAME PRICE** as THHN.

THE FOCUS IS ON LABOR SAVINGS

INCREASES YOUR JOB SITE PRODUCTIVITY

- Reduces Installation Time
- Faster Pulling Time
- Same Length Conductors Prevent You From Being Short on a Pull

ONE REEL = 4 or 5 REELS OF SINGLE CONDUCTORS

- More Space on Jobsite
- No Parallel Reels to Return
- Less to Store & Secure
- Friendlier to the Environment

VIRTUALLY ELIMINATES JAMMING DURING THE PULL

- Dramatically Reduces the Chances of the Conductor being Damaged

COUNT ON COLONIAL ELECTRIC SUPPLY

ServicePlex® stocked and ready for next day availability

- SPXHHW1/0-3BLK SPLEX 3000' - 3 Conductors Size: 1/0
- SPXHHW2-3BLK SPLEX 5000' - 3 Conductors Size: 2
- SPXHHW4/0-3BLK SPLEX 1500' - 3 Conductors Size: 4/0

- Colonial will custom phase tape any order upon request.

- Need a variation we don't stock? Colonial can source the order for you with an accelerated lead time.
